

IdP as a Service Business case

Activity kick-off, 06.02.2019

Public

www.geant.org

Agenda

- Introduction
- Roles and Responsibilities
- History of Campus IdP
- About the service
- Activity goals
- Tools
- Next steps

Roles & Responsibilities

Name	Role	Subject
Mario Reale	P.I.	Product lead
Niels van Dijk	Mentor	Advise
Michael Schmidt	Scrum Master	Process support
Alan Lewis	Team Member	Business Plan
Halil Adem	Team Member	Backend Development
Sergio Gómez	Team Member	Backend Development
Michael Schmidt	Team Member	Frontend Dev, Business Plan

History of Campus IdP

Home Organizations:

- *Support local administrators in spawning their HO Identity Provider*

=> Community survey:

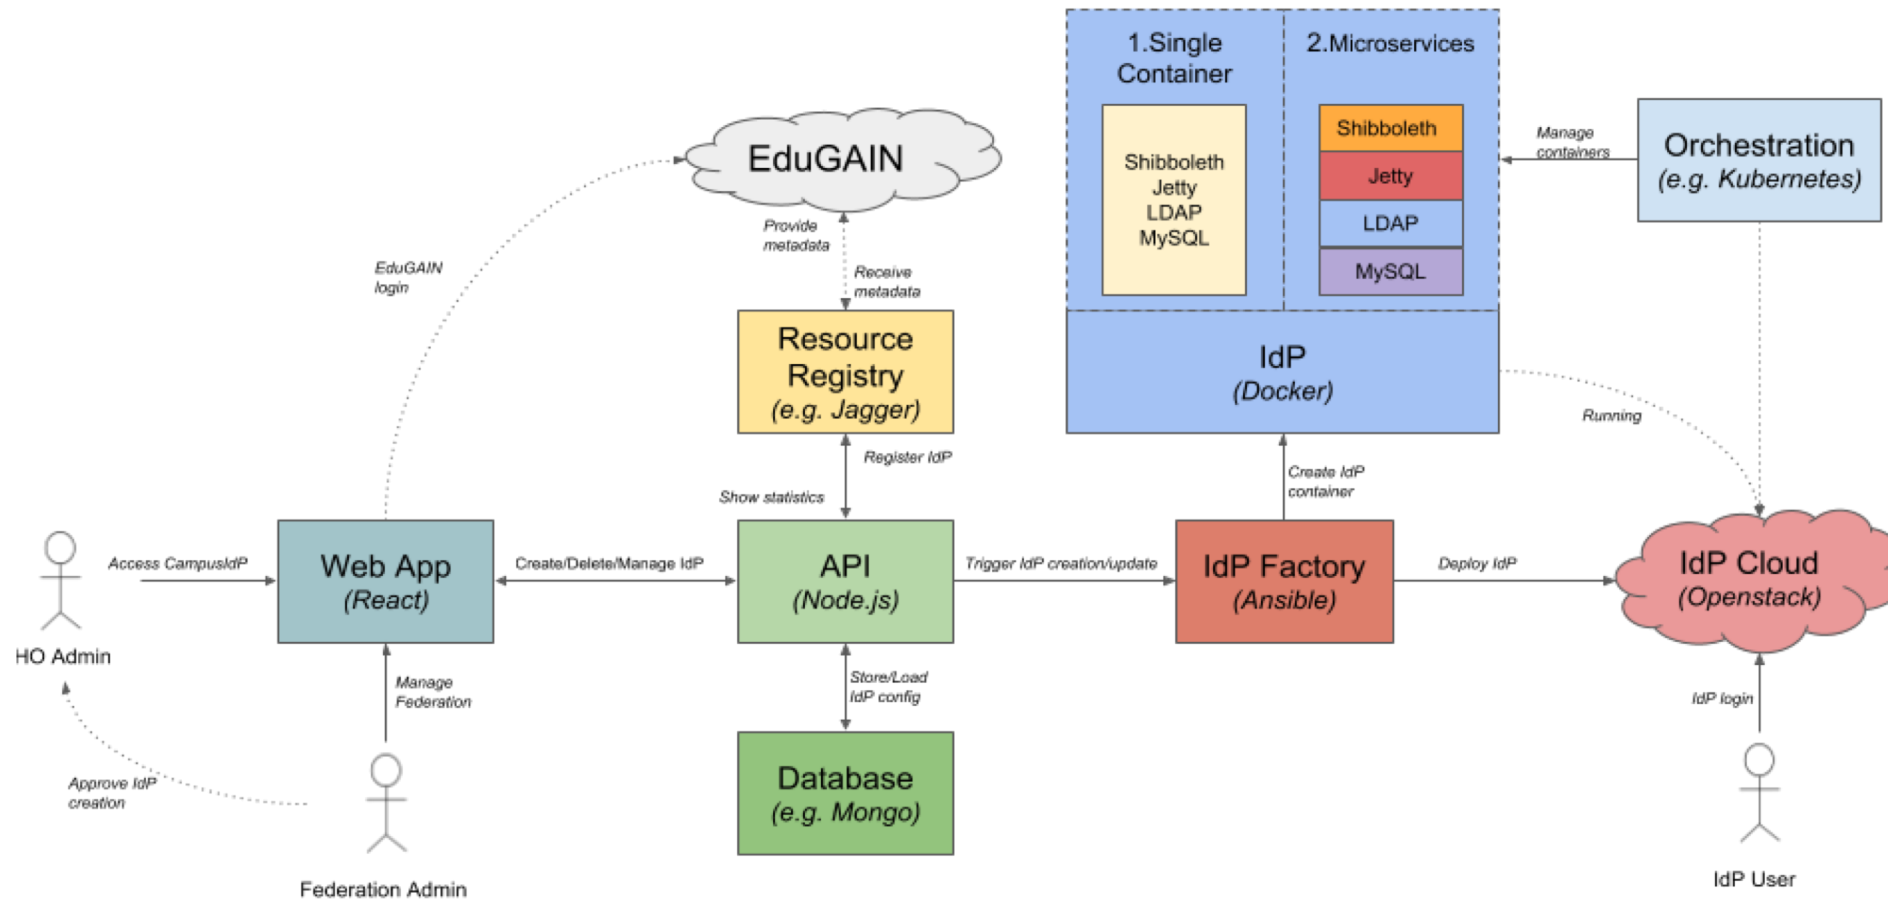

There is high desire but little or no internal ability for institutions to deliver identity provider services to their users (~ 40 % of answers)

Federations:

- *Support Federation Operators in their role of Cloud IdP providers*

About the service

Activity goals

- Consolidate the current basic prototype
- Extend Shibboleth Configuration space
- Extend currently provided IdP lifecycle management functions and deployment options
- Include additional Cloud/Virtualization stacks
- Setup/Development of the platform AAI infrastructure and user enrollment process
- Work on Platform deployment module and regionalization
- High Availability for IdP instances

Tools

- Action items in Trello (<https://trello.com/b/qjle49nh>)
- (Final) documentation in Confluence (<https://wiki.geant.org/display/gn43wp5/IdP+as+a+Service+Business+case>)
- Source Code in GitHub (<https://github.com/GEANT>)
- Communication via Slack
 - idp-service
 - idp-service-business (business plan)
 - idp-service-tech (technical implementation)
- Formal communication via mailing list
 - idp-service-incubator@lists.geant.org

Next Steps

- Prepare the Activity Backlog (Mario, Michael, Niels)
- Hand over meeting for the API (Sergio, Halil, Janusz)
- Scrum training & sprint planning (05./06.03)

Thank you
