

# **eduPERT history – GN2 and GN3plus**

**Ivana Golub - PSNC**

SIG-PMV, 3 July 2019

Dublin, Ireland

[www.geant.org](http://www.geant.org)

## eduPERT

- PERT = Performance Enhancement Response Team
- "eduPERT is the GÉANT service for the "network of PERTs"" (*from the GN3plus eduPERT portal*)
- Main purpose - to troubleshoot performance issues on the GÉANT backbone

## eduPERT in GÉANT 2 Project time

- Started as a part of "End to End Quality of Service" Service Activity (SA3) lead by Toby Rodwell, GÉANT
- A centralised eduPERT service established to work on multi-domain performance problems
- NREN representatives (members of SA3) working as Case managers on reported performance problems in weekly shifts
- Lowlights:
  - low response from organisations "on the path"
  - long-lasting cases
  - cases resolved by themselves rather than through eduPERT shifts

## eduPERT in GÉANT 3 Project time

- Disclaimer:
  - *Some data on this slide might be incorrect or incomplete due to the absence of the SPoT*
- The interest in eduPERT operational service declined:
  - lower number of reported cases
  - less contacts with users recorded
- Increased range of activities:
  - Portal
  - Mailing list
  - Knowledge database
  - Certification

# eduPERT in GÉANT3plus Project

- Activities described in the Deliverable document:
  - [https://geant3plus.archive.geant.net/Resources/Deliverables/Documents/D8-1\\_DS4-4-1\\_eduPERT-Report.pdf](https://geant3plus.archive.geant.net/Resources/Deliverables/Documents/D8-1_DS4-4-1_eduPERT-Report.pdf)
- eduPERT **portal**
  - <https://geant3plus.archive.geant.net/Services/NetworkPerformanceService/Pages/eduPERT.aspx>
- **Mailing list** with more than 100 registered participants
  - [pert-discuss@geant.net](mailto:pert-discuss@geant.net)
- **Knowledge database** organised in five categories:
  - Network (network metrics, protocols and tuning).
  - End host (application protocols, host tuning, virtualisation).
  - Tools (PERT tools, NREN tools and statistics and network emulation).
  - General knowledge (user-perceived performance, performance metrics, etc.).
  - Performance case studies (sharing PERT solutions, etc.)

## eduPERT in GÉANT3plus Project (cont.)

- eduPERT **Monthly calls**
  - Up to 1 hour calls with an invited talk about a performance-related topic
  - Speakers from and outside of GÉANT community
- Yearly eduPERT **community meetings**
- eduPERT **Workshops**
  - General or tailored for a specific user-group
- **PerformanceU!** (Performance University)
  - A "pilot" for an Annual school
  - 11 invited speakers, 19 attendees
  - Topics included TCP performance, investigative and monitoring tools, virtualisation, OpenFlow and multipath TCP over SDN, case studies and expert reports

## eduPERT in GN4-3

- Proposed during the project preparation phase
- No clear instructions from the GPPC
- Not included in the Technical Annex

## eduPERT - What's next?

- Keep the brand?
- Rename SIG-PMV to SIG-eduPERT?
- What should it include?
  - Trainings / Workshops / Webinars?
  - Knowledge base?
  - Portal?
  - Assistance in resolving PERT cases?
  - Other...?

# Thank you

Any questions?
