

SIG-Multimedia - The way into the metaverse

22 February 2022

How would you rate this SIG-Multimedia meeting?

What is your take-home message or most useful piece of information from this meeting for your everyday work?

Collaboration

Standardization work needed.

open source standards

We have to collaborate more!

possible collaboration with other participants in different areas!

Dont invent the wheel again.

We need to share information between NRENs more often

We need more collaboration and more open source solutions

What is the real core element, which has to be done together

What is your take-home message or most useful piece of information from this meeting for your everyday work?

Video Archive is place to collaborate

Metaverse is coming

it's very interesting to see how different the NRENs deal with the Metaverse idea - and I really look forward to see open source and open standards evolving.,

whether our NREN is in the Stone Age :)

The quieter you become the more you are able to learn. And there is always something new to learn.

Inspiring.

It is very inspiring to see progress of other NRENs on these interesting fields. Wish we could advance more into these as well.

Interactive video

360 video capture, VR use cases for education

What is your take-home message or most useful piece of information from this meeting for your everyday work?

web conferencing engines

the examples shown are really impressive.

Any future topics you want to discuss?

interactive video

live demos

Is it important to have services on-prem or it is good enough to use cloud?

Recording solutions, deployment

More focus on interaction

potential for collaboration

Future trends, Opensource, VR applications, Interactive videos, AR applications

Hybrid conferences.

immersive vc

Any future topics you want to discuss?

:)

Do you have other comments or suggestions?

no

Looking forward to meeting you in person.

more open discussions including the audience

BoF in TNC?

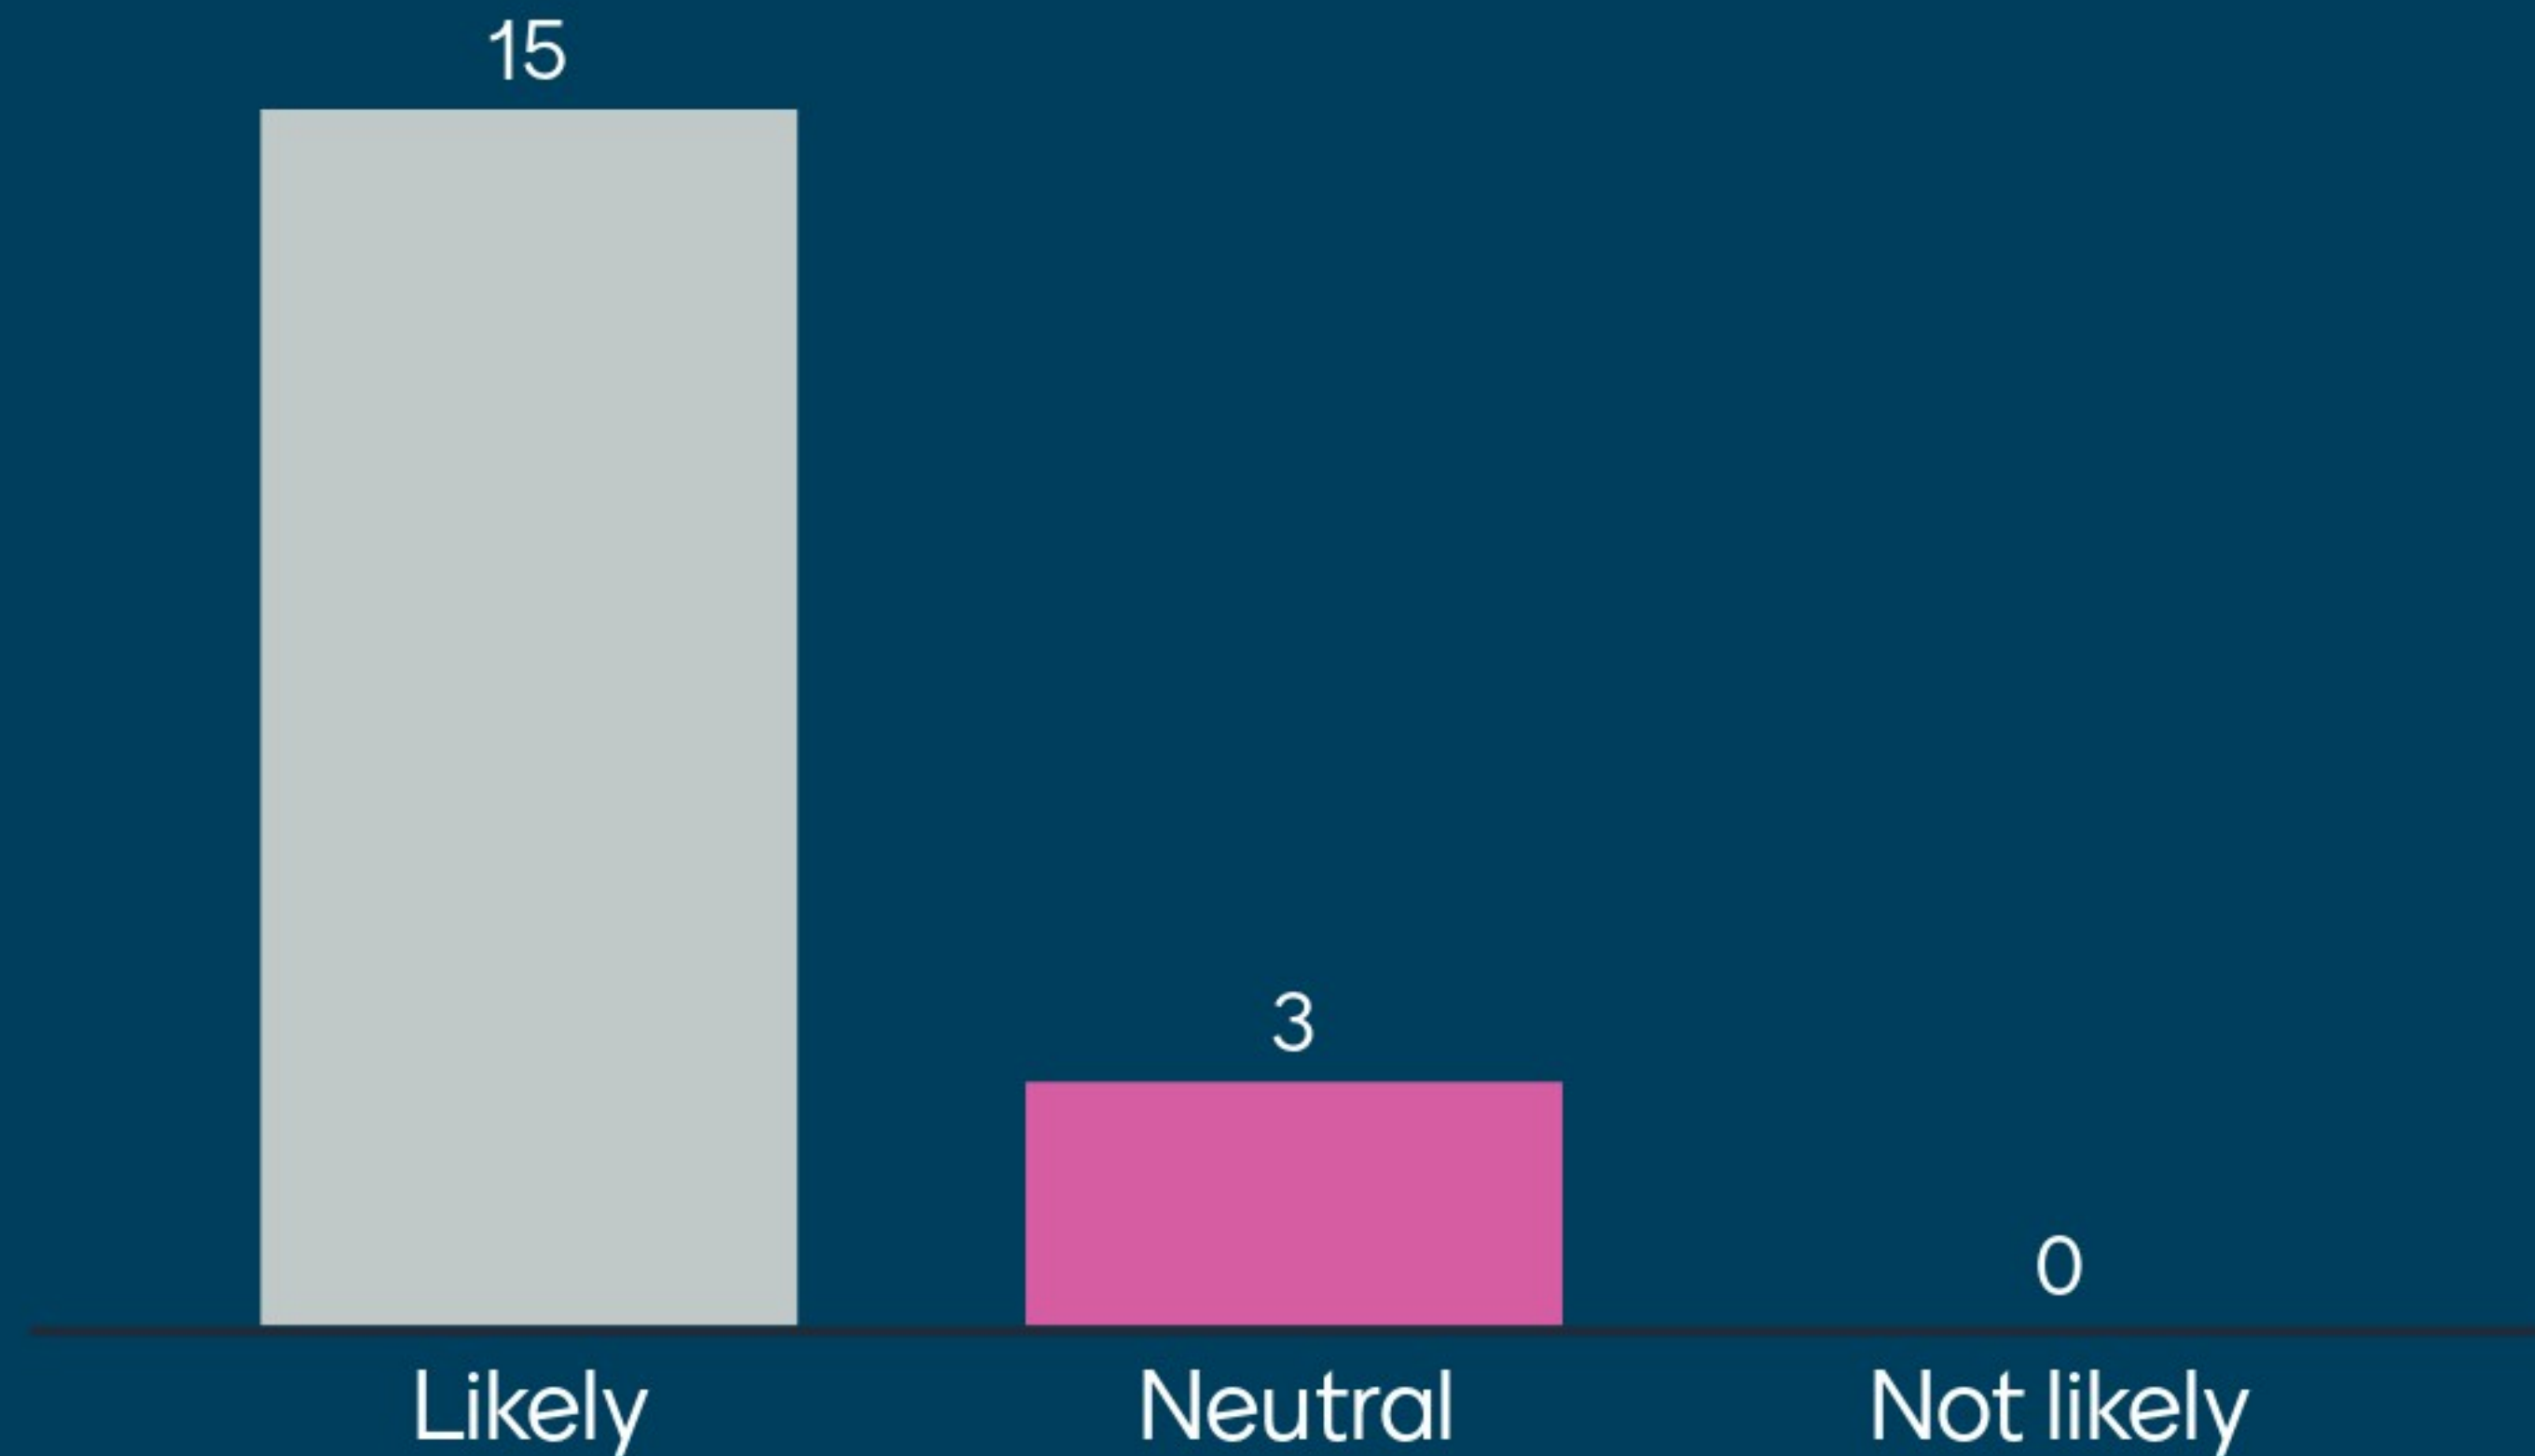

More Tech talk would be great.

invite a speaker from business as key note speech

i think this format is really helpful for collaboration., keep going.

How likely are you to come back to the next meeting?

Thank you!

See you soon again!
